

make yourself
at home

new homes

Marc Salamone's successful career began while working for his family's premier custom home building business. As a dedicated professional with over 25 years of knowledge and experience in home building, he embarked on his own to start Marc Salamone Homes.

Marc Salamone Homes are designed and built with superior attention to detail, making sure each home is delivered with unrivaled quality and customer care.

"As first-time home buyers, my wife and I turned to family and friends for advice regarding every aspect of searching, planning, and building a home. We heard both success stories and horror stories. I'm relieved to say, we now have our own success story. We couldn't have asked for a better builder than Marc Salamone. Not only is he great at his craft, he is quite honestly one of the best human beings we've ever met. Throughout the entire process, he shared our excitement and sometimes even exceeded it, as his passion for building homes is strong.

One of the home building challenges we had heard from friends was their own inability to communicate with their builder for questions or status updates. This was not our experience at all with Marc. In fact, our first meeting to discuss the options and upgrades took place at his own home. From there, we could text back and forth with ideas and questions. Marc always responded in a timely manner. He even began sending us progress pictures of our home from Day 1's first dig, all the way up to our final walk-through.

Regarding the quality of the home and the options: His homes are not "builder grade." Several of the standard features of our home would be additional options with a different builder. The colors, materials, and quality of everything we had to choose from made us very comfortable with every decision we made. We relied heavily on Marc's expertise and he was more than willing to share his advice when we felt unsure about anything. There was never any doubt that he knew what he was talking about and that he has experienced a lot during his career to provide solid reasoning behind every suggestion.

We will continue to highly recommend Marc Salamone as a builder who cares for each home as if he were building it for his own family. We are very lucky to have had Marc as part of our first home buying experience!"

Marc's relationship with his clients is his number one priority. He strives to exceed customer expectations before, during, and after construction to provide an exceptional home building experience.

Marc has spent his career building long-term relationships with a talented team of subcontractors, vendors, and tradespeople whose industry experience ensures a successful, seamless, and quality built home for every client.

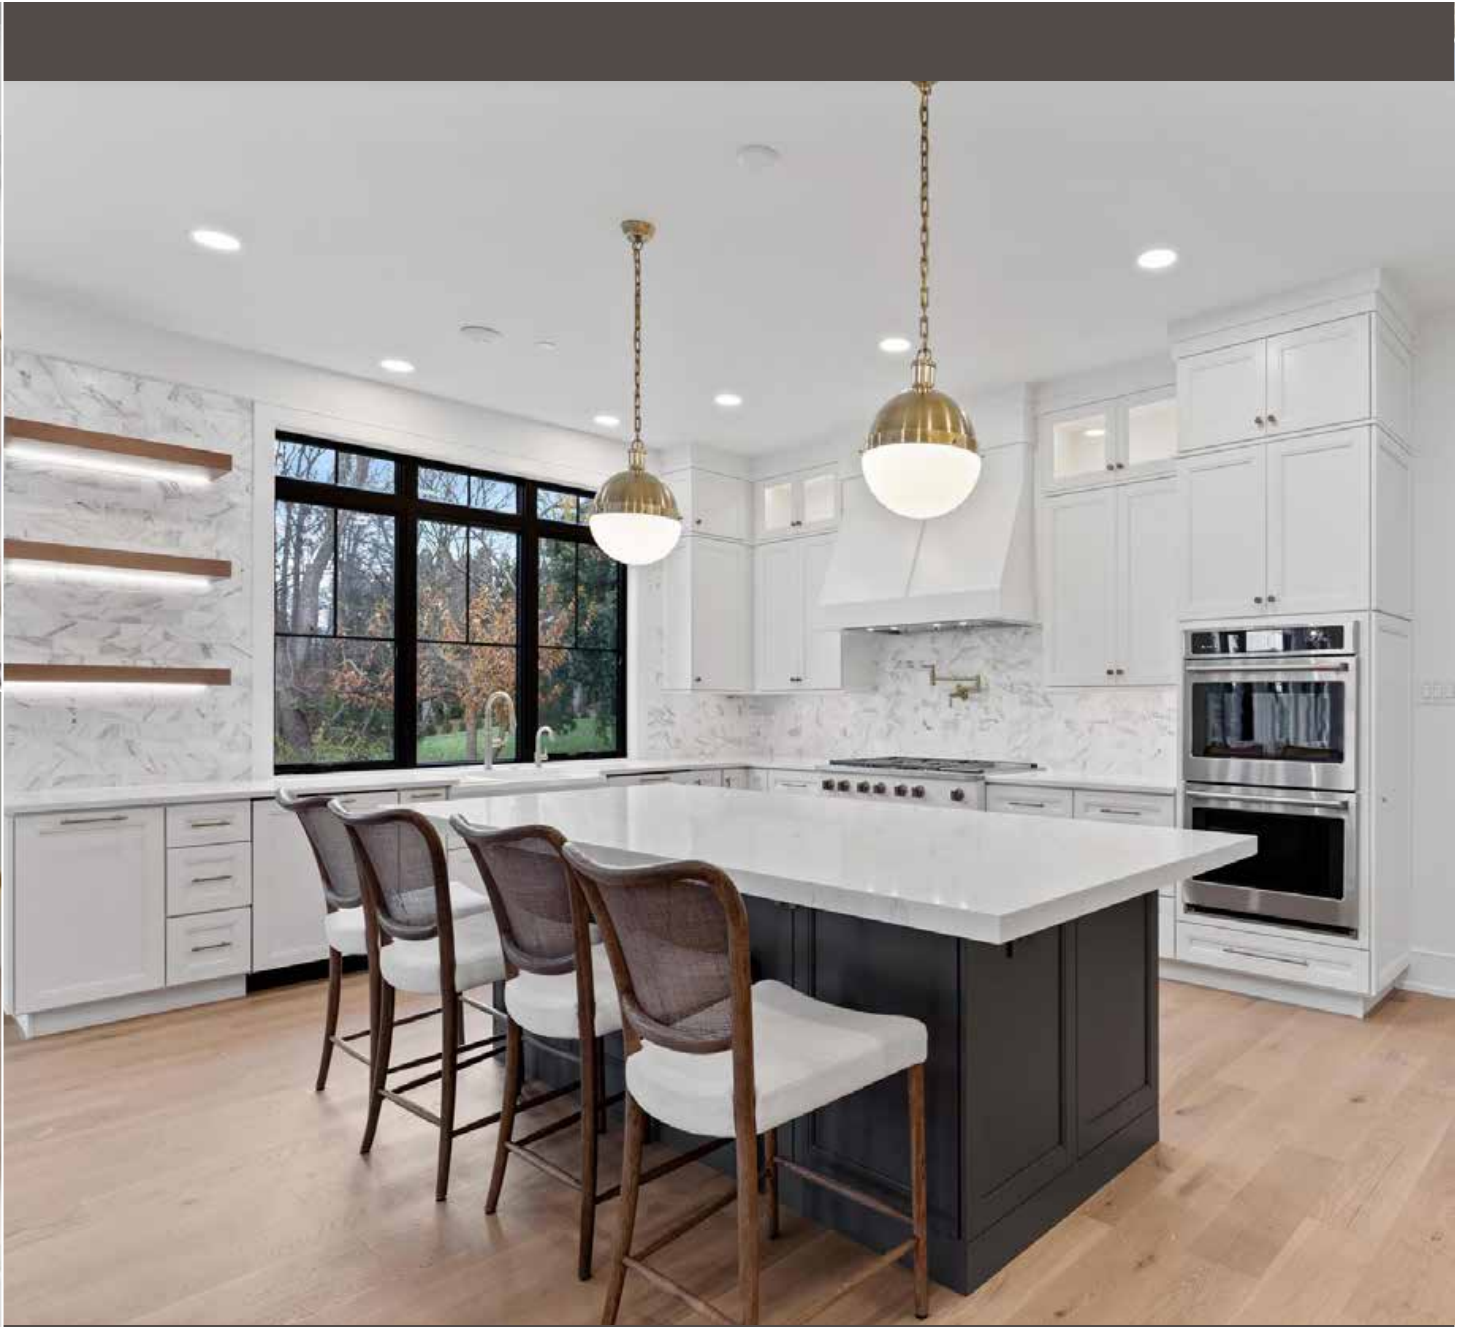

**Twin Valley
Woodcrafts**

251 Horseshoe Lane, Narvon, PA 17555
Omar: 610-286-7194 | Ryan: 717-271-3723

"Building Customers for Life"

Freedom Millwork is a full-service millwork company, providing our customers with custom cabinetry, doors, kitchens, mouldings, hardware and more! We cater to the professional as well as to homeowners. Our experienced team can help you turn your dreams into a reality.

"Our family has lived in a Marc Salamone home for nearly 5 years. Marc's Wiltshire colonial has been nothing short of perfect for our family not only in size but also in construction. Marc's attention to detail is apparent starting with a four story wooden staircase and beautiful two story coffered ceiling all the way down to our electric and plumbing basement panels. 5 years later we are thankful that we had the opportunity to purchase this forever home."

— Mohammed & Sama

"There are not enough words to describe how happy and excited we are with our new home. After over a year of house hunting, (losing house after house) we were beyond defeated. Marc came into our lives at the best time and created our dream home. It is more than we ever imagined and we are so grateful and lucky to call it ours. From day one Marc has been someone we trusted and admired. He helped steer us through tough decisions, while calming us through our worries. We were nervous, but we had faith in him and he absolutely delivered. Marc builds an incredible house and we are so happy we met him."

— Tim & Lexi

"We could never thank Marc enough for all the time, effort, and thought he put in to make our house a home. There is no one else we would have trusted for the job. We hope he knows how much we appreciate him and all his hard work!"

— James & Jennifer

Trust us for all your drywall needs—where expertise meets excellence!

"My wife Nicole and I moved into our dream house just 30 days ago. We are thrilled with how our home turned out! Building a home in 2020 during a pandemic was a challenge as you can imagine. For awhile, all non-essential businesses were shut down, including construction, and we were unsure what that would mean for our big plans. One constant throughout the entire process was Marc Salamone. He was calm, reassuring, and confident. Marc always kept our best interest front and center and was 100% available to us to discuss any question or concern.

We chose Marc Salamone to build our home for many reasons. The quality of construction and materials was evident when we toured his model homes.

But don't take my word for it. Speak to the people that work for Marc. The electrician, the carpenters, the tile and countertop fabricators and installers. Each time I'd engage in a casual conversation with one of Marc's contractors, the story was the same, "Marc does quality work and really cares about his customers." "You guys picked a great builder".

I could go on but I think you get the point. Marc is the rare builder who has incredible attention to detail, endless patience, and never loses sight that to each customer, their particular house is the most important one. We wholeheartedly recommend Marc Salamone Homes if you are looking to build your dream home. "

— Dennis and Nicole

MARC
SALAMONE
HOMES

"My wife and I just completed our dream home and worked extensively with Marc over the last 6 months. When you're building a new home it's essential to find a professional builder with high integrity who continually puts the customer first and Marc is the epitome of these characteristics, which I believe is extremely rare. Marc went above and beyond to make sure we were always happy and take the time to explain things to us and meet with us in person. My wife is very detail oriented and asks a lot of questions and Marc always took the time to answer her questions and never lost patience. Buying and building a home is a high anxiety event and Marc made us feel comfortable the entire time. His work is flawless and he truly provides excellent value in the home compared to other builders. We never felt at all like we were being "nickel and dimed" but always felt that Marc would do whatever it took to satisfy our requirements and was extremely reasonable whenever we made changes. On top of his professionalism Marc is a really great person. He treats everyone with complete respect - it was an absolute pleasure working with him and we give him our highest recommendation possible. If we ever built another home, we would be honored for Marc to build it."

"Every once in a while, you meet someone who is extremely passionate about what they do – who does their job not just for the paycheck but because they care about the customer experience and pride themselves on delivering excellence. This is precisely how Marc presented himself.

He made it clear that he built this house – he did not outsource it to some project manager. His attention to detail and quality of work is in every corner of our home. Everything is high quality – no cheap builder grade materials. After our inspection, Marc pointed out some things he still intended to fix/finish that the inspector did not catch. Obviously he could have gotten away with not addressing those items, but he realizes his reputation is at stake and he invests in the happiness of his customers. We encountered some bureaucratic nonsense with our local municipality approving permits and Marc jumped through hoops to make sure we got everything we needed so that we could keep our closing date. He called me after closing to tell me that our relationship was not over... that I could call him on his cell with any questions or concerns about our home.

Marc does not churn out houses. He builds homes. He truly cares about his customer. I give him my highest recommendation."

— Mike & Erica M.
